SUMMARY

MCA graduate with strong knowledge of Core Java, Java 8 features, OOP, Collections Framework, Multithreading, JDBC, Maven, and SQL. Developed Java applications through academic projects and internships. Seeking a Java Developer role to build scalable software solutions.

EDUCATION

Gandhi Institute for Technological Advancement (GITA)

Master of Computer Applications (MCA)

91%

2024 – 2026

Brundaban +3 Science Residential College, Baramba

Bachelor Of Science (BSc) in Computer Science Hons

81.80%

Cuttack, Odisha

Completed 2024

Kanpur Anchalika H S School, Kanpur

Higher Secondary (12th), Science

73.83%

Cuttack, Odisha

Completed 2021

TECHNICAL SKILLS

Languages: Java, C, C#.Net, HTML, CSS

Concepts: OOP, Exception Handling, Collections, Java 8, Multithreading

Build Tool: Maven

Databases: MySQL

Libraries and Frameworks: JDBC, Java Collections Framework, Java Stream API

Tools: Eclipse, VS Code, IntelliJ IDEA, GitHub

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Technical Communication

PROJECTS

Mini E-Commerce System

- Developed a console-based e-commerce application using Java, JDBC, MySQL, and Maven with DAO and Service layers.
- Implemented product browsing, cart management, order placement, order history, and stock management.
- Used PreparedStatement, SQL JOINS, transactions, rollback/commit, and batch processing for database operations.

Bank Account Transaction System

- Developed a console-based banking system using Core Java, OOP, Collections, and Exception Handling.
- Implemented deposits, withdrawals, duplicate removal, sorting, balance filtering, and account statements using ArrayList, HashSet, Iterator, and Comparator.
- Applied Stream API, Lambda Expressions, equals()/hashCode(), and Multithreading using Runnable and synchronized.

TechStyle Product Catalog

- Developed a console-based product catalog using Core Java, OOP, Collections, and Custom Exceptions.
- Implemented product filtering, duplicate removal, and sorting using HashSet, Iterator, Comparator, and Streams.
- Applied Lambda Expressions, Method References, Inheritance, Method Overriding, and Encapsulation.

INTERNSHIPS

ASP OL Media Pvt. Ltd.

Software Engineer Trainee

Oct 2025 – Feb 2026

- Assisted in software development and testing activities. Collaborated with team members to understand software development workflows. Participated in debugging, issue tracking, and application maintenance.
- Worked with development tools and followed the Software Development Life Cycle (SDLC).
- Gained practical exposure to software engineering practices in a professional environment.

Cognifyz Technologies.

Java Specialist Intern

2024

- Developed and optimized Java-based applications leveraging core OOP principles including inheritance, polymorphism, encapsulation, and abstraction to build modular, maintainable codebases.
